

65" 4K Touch Digital Signage – Windows OS

AZTECH AZ-FDS-65TWPRO

Large 65" Ultra HD 4K Display

Delivers crystal-clear visuals with vibrant colors and sharp details for impactful presentations.

Capacitive 10-Point Multi-Touch

Supports smooth, responsive gestures such as tap, pinch, zoom, swipe, and flick for interactive engagement.

Windows-Based Platform

Powered by the latest Intel® processor with Windows OS, ensuring compatibility with a wide range of business and multimedia applications.

Customizable Performance

CPU, RAM, and SSD storage options can be configured to suit various performance needs.

Durable Tempered Glass

High-transparency, anti-glare, and scratch-resistant glass for long-lasting clarity and protection.

Multiple Connectivity Ports

Equipped with HDMI, USB, LAN, Wi-Fi, and Bluetooth for flexible device integration.

All-in-One Design

Combines display, touch, and computing in one sleek unit, reducing the need for external devices.

Wide Viewing Angle

Ensures content remains vivid and readable from any position in the room.

Easy Content Management

Compatible with digital signage software for scheduling, updates, and remote control.
